Experience – No Need to Enter Your  
Username and Password Every Time

Logging in to  
BM Online Business Mobile App

For Android and IOS users

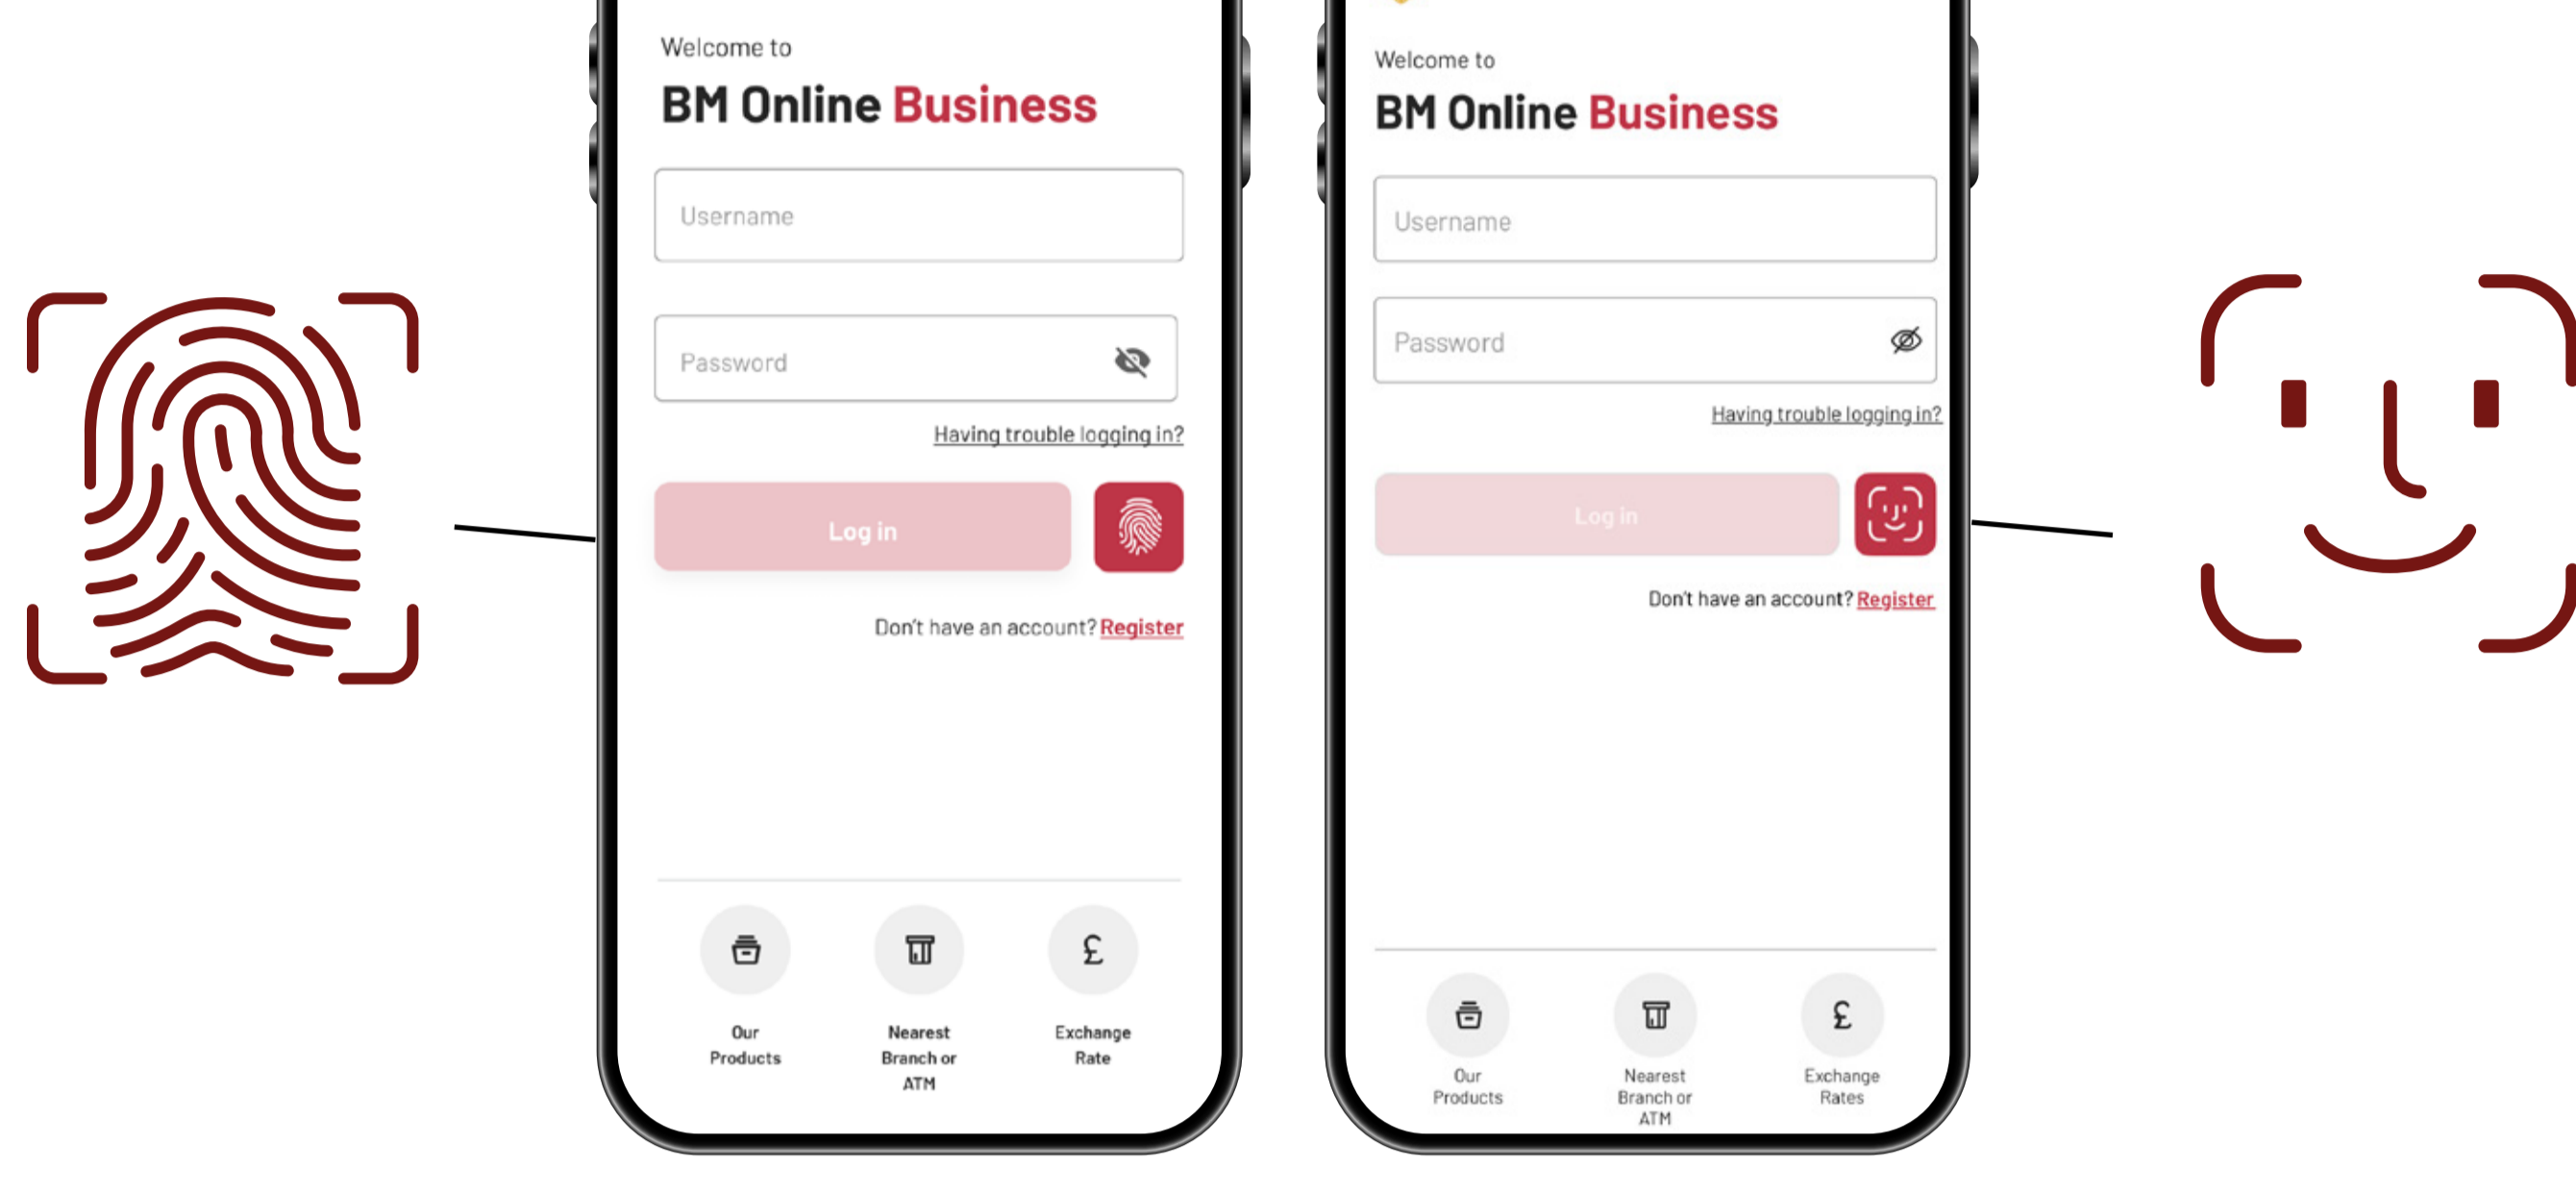

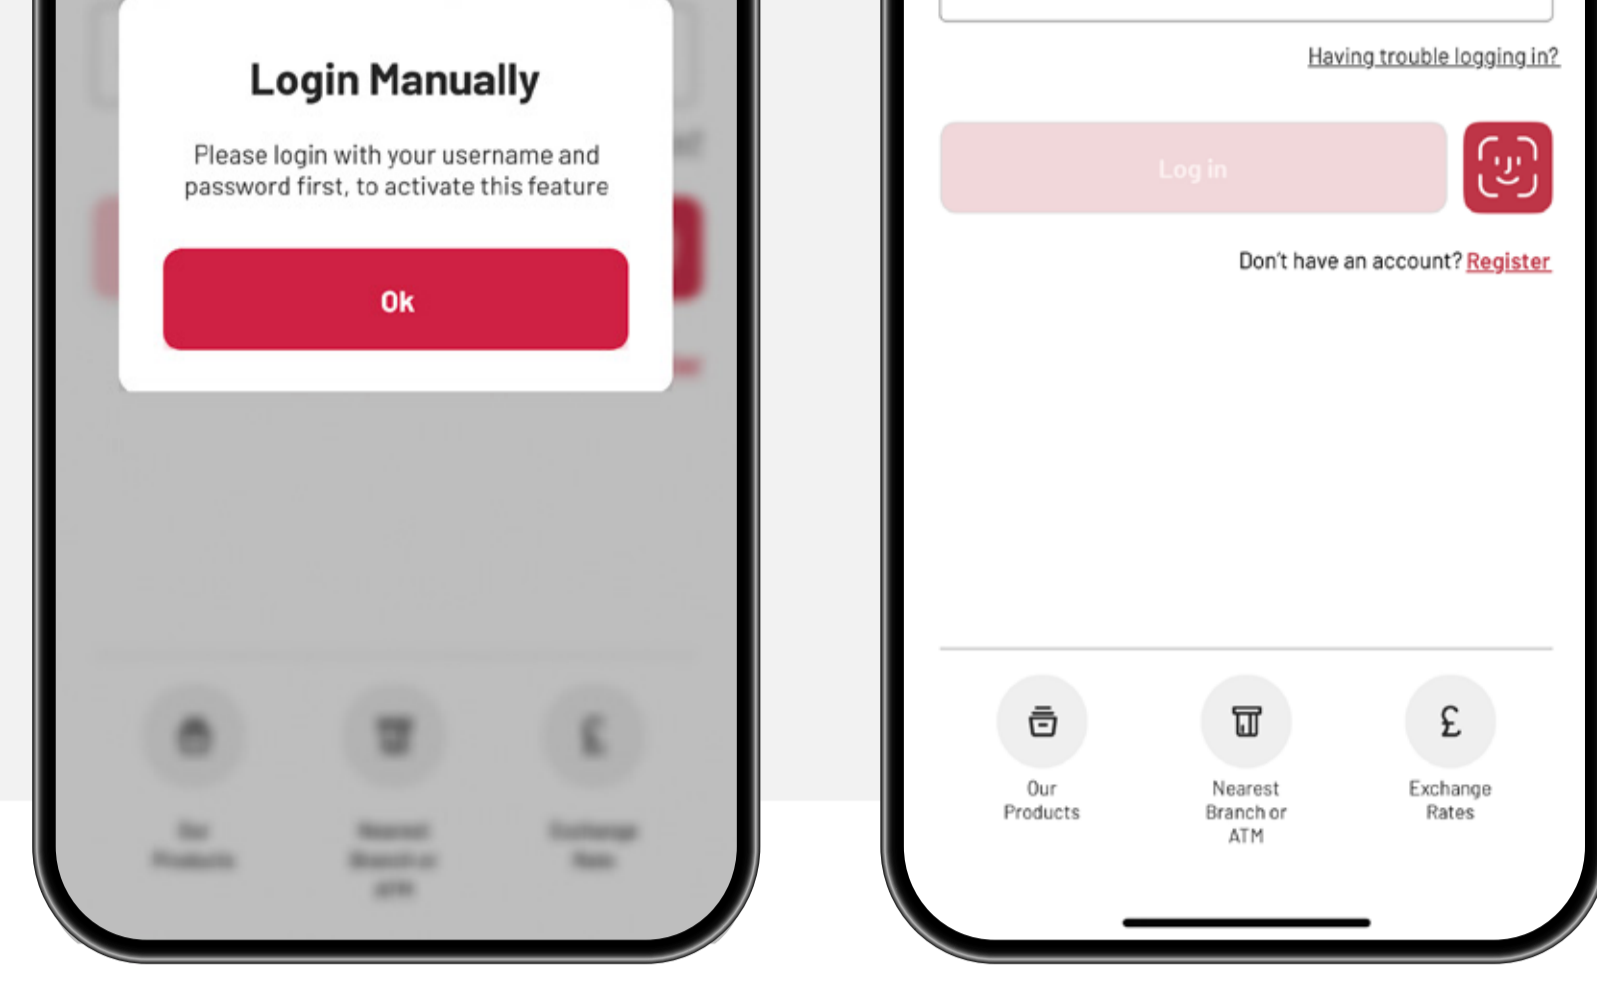

Enjoy more security and convenience by  
activating fingerprint / facial recognition login

## Steps to Activate Fingerprint/Face Recognition Login For Android and IOS Devices After App Update

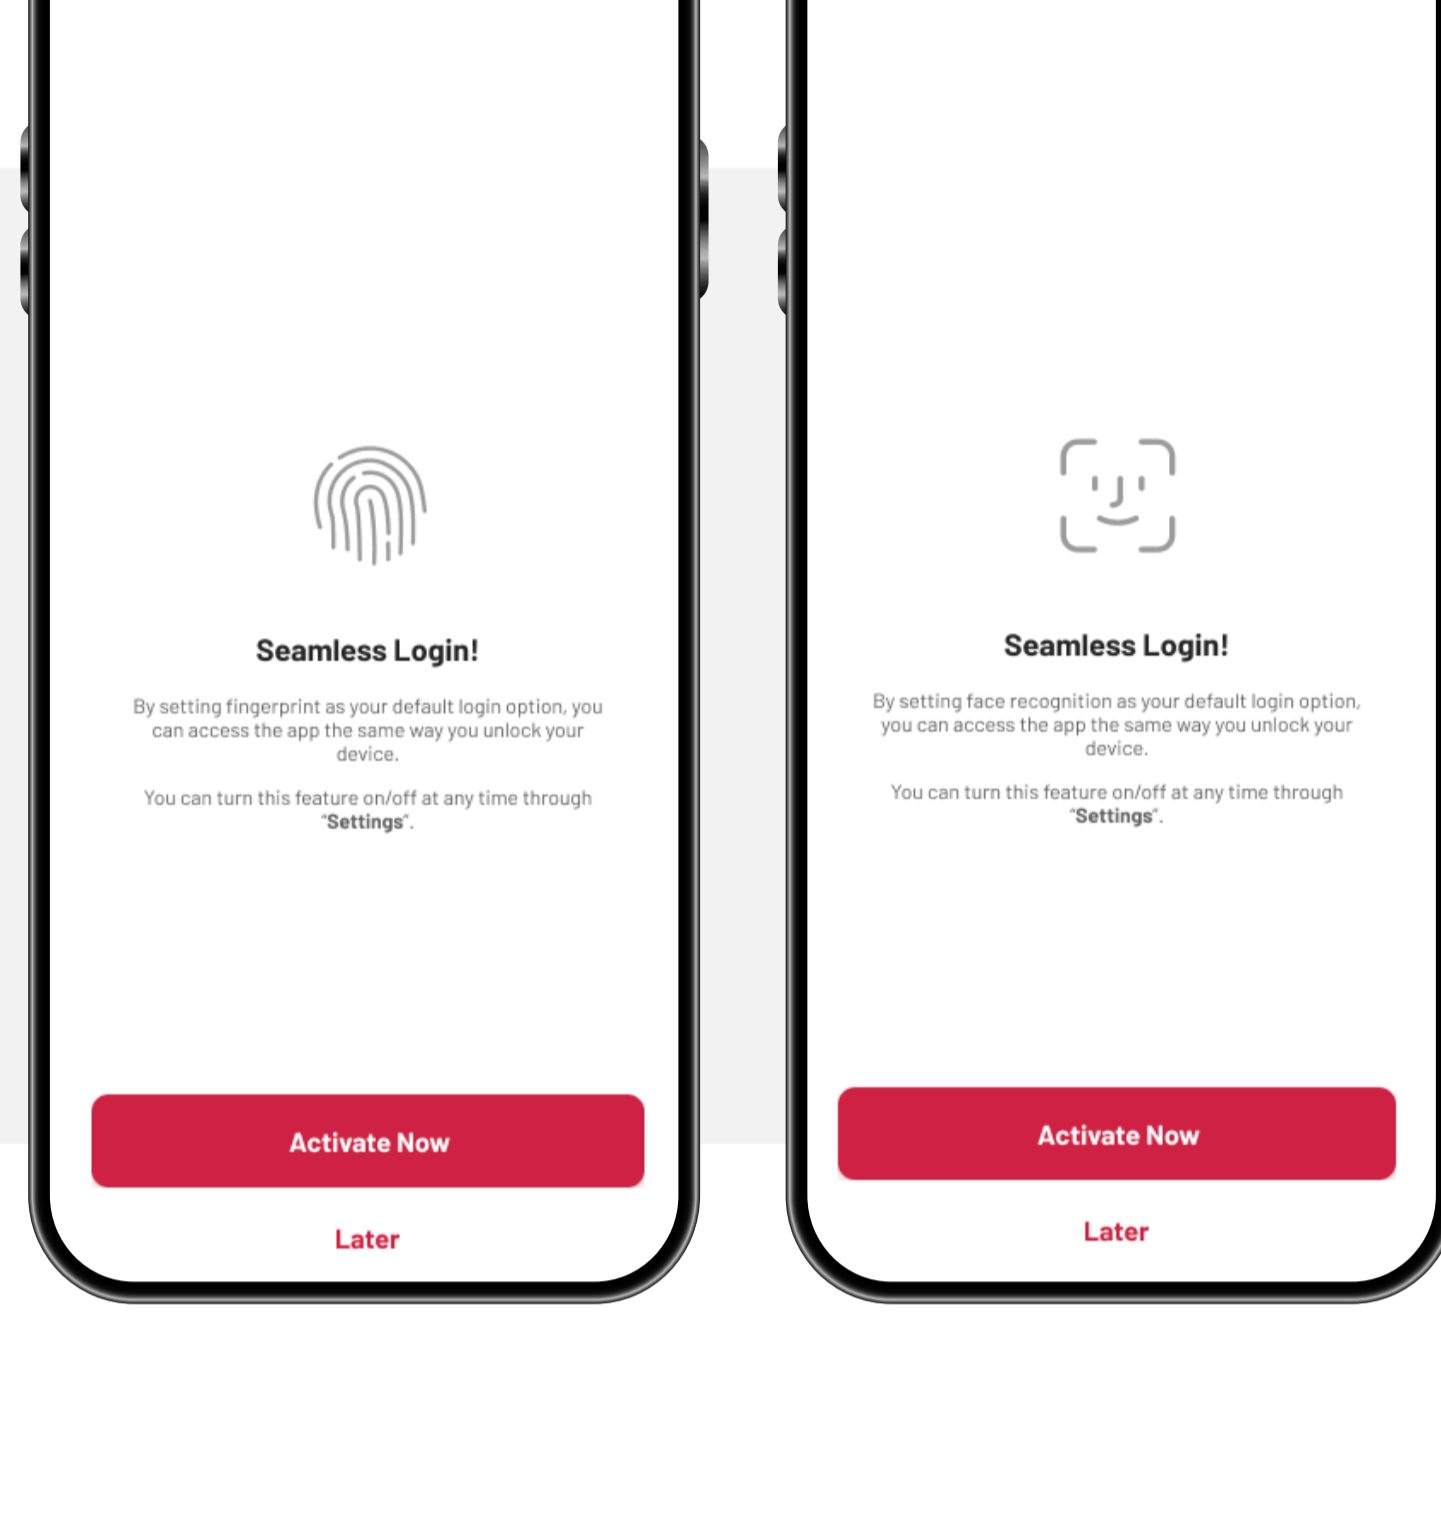

1

First-Time Login After Updating the App:  
Tap the fingerprint/face recognition icon  
on the login screen. **the app will first  
require you to login using your  
username and password**

2

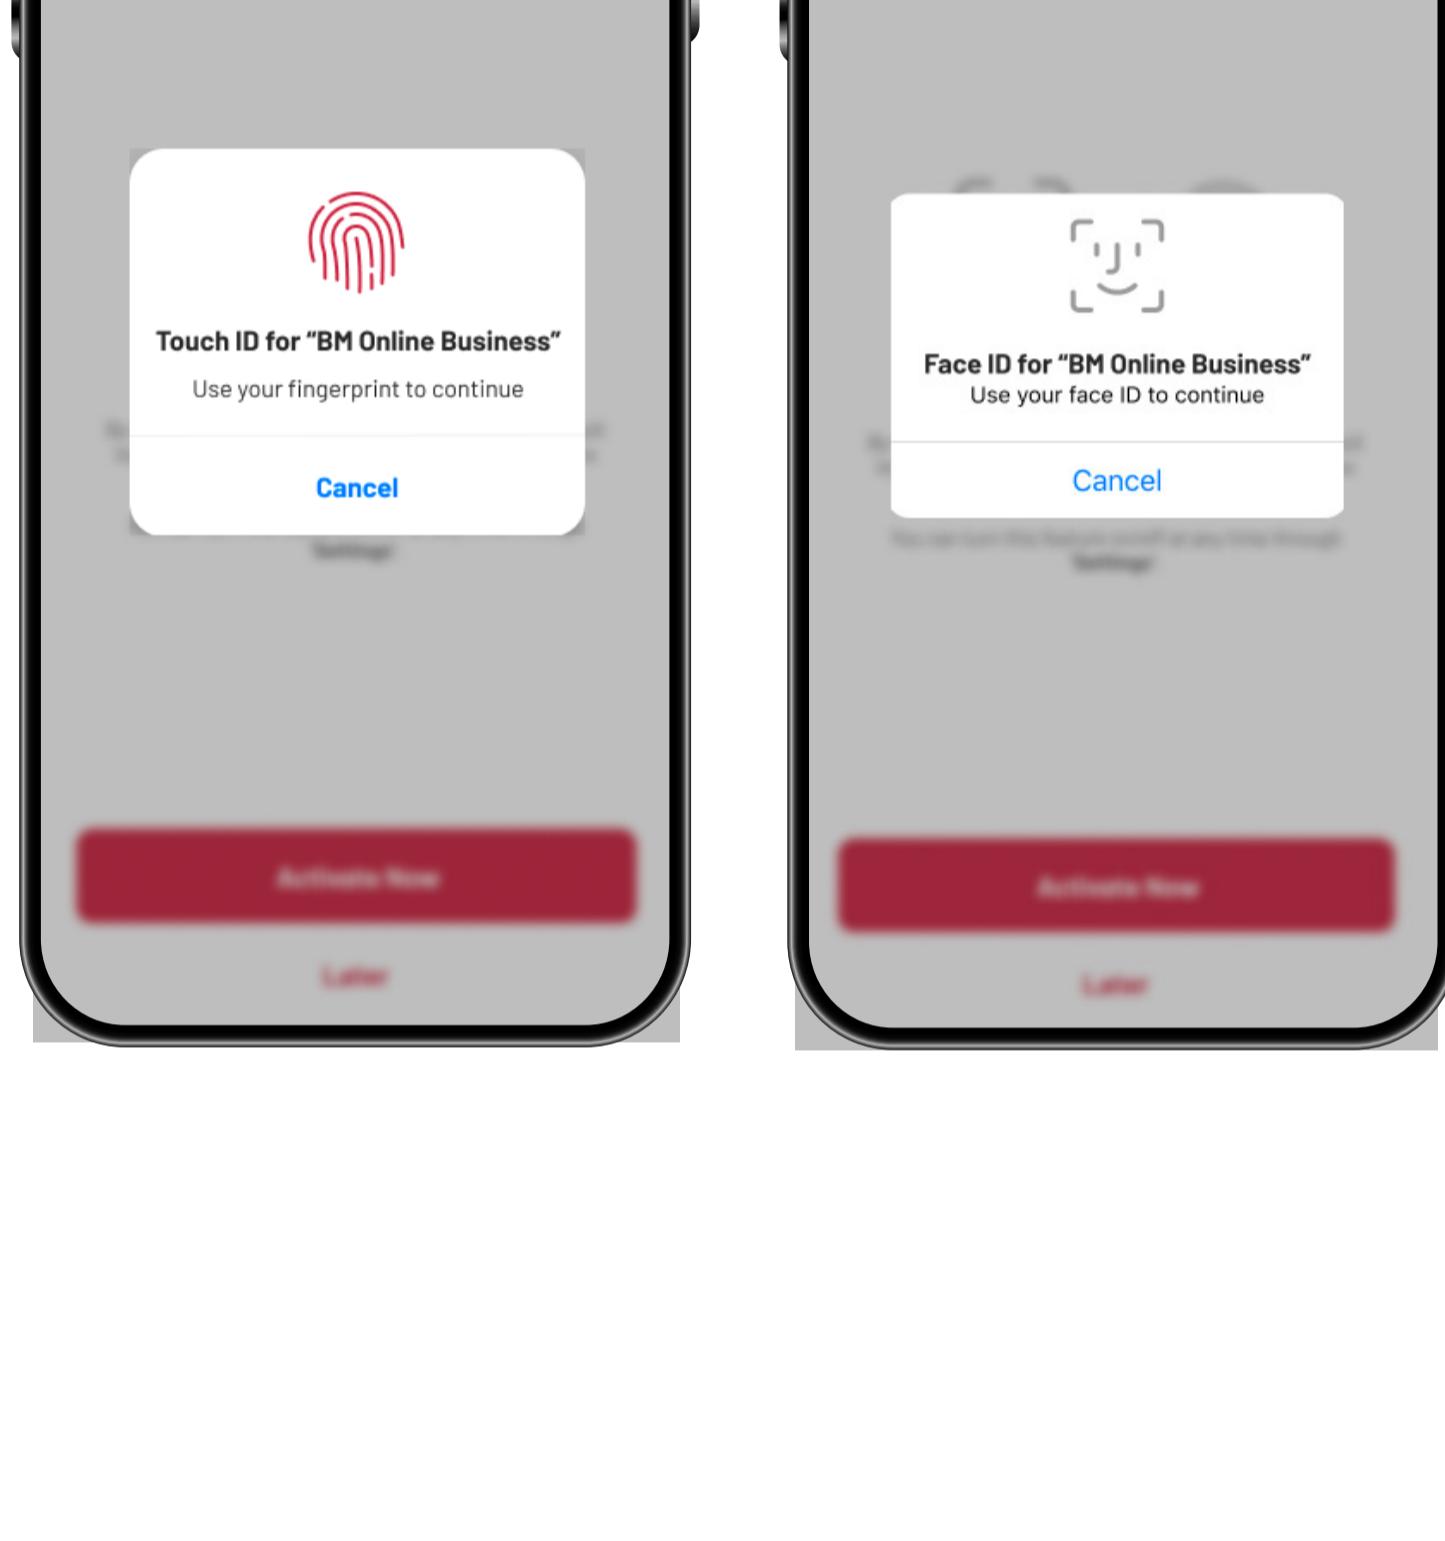

After logging in, the following screen  
will appear  
**If you tap “Activate Now”**

3

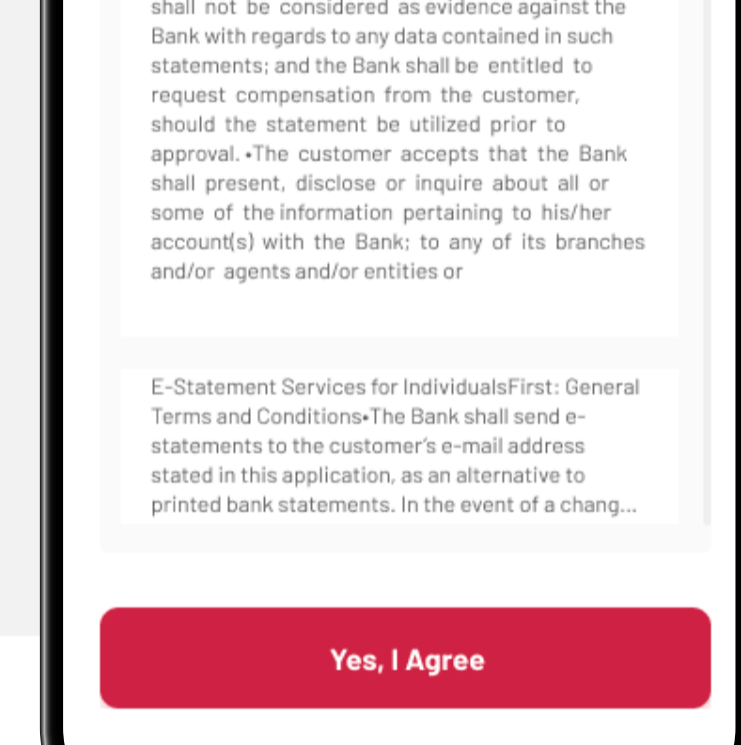

**the app will:**

- Ask you to confirm the fingerprint  
saved on your Android device
- Or authenticate your face using  
the registered Face ID on your IOS  
device

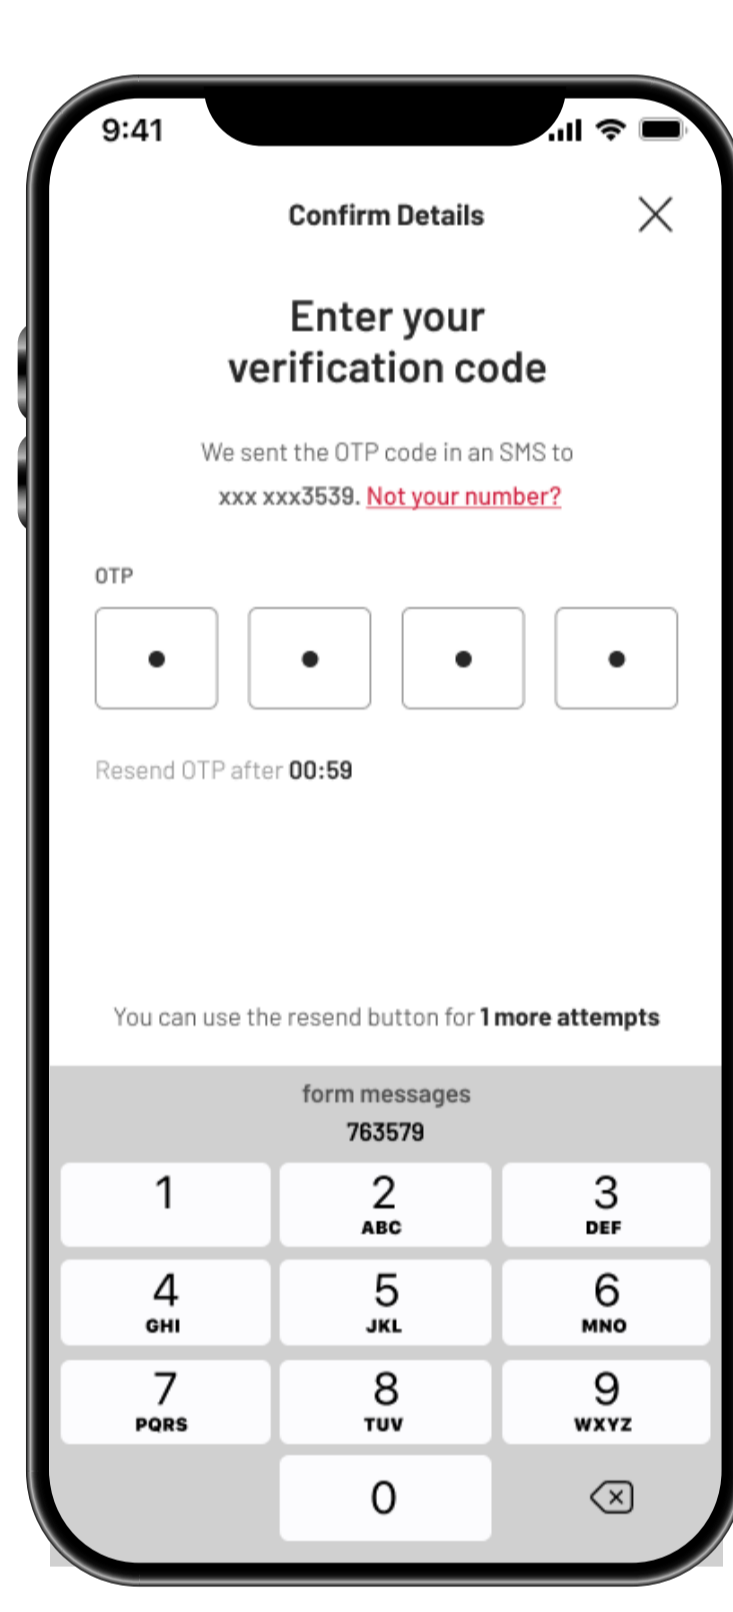

4

The Terms and Conditions screen  
will appear read them and tap  
**“Yes, I Agree”**

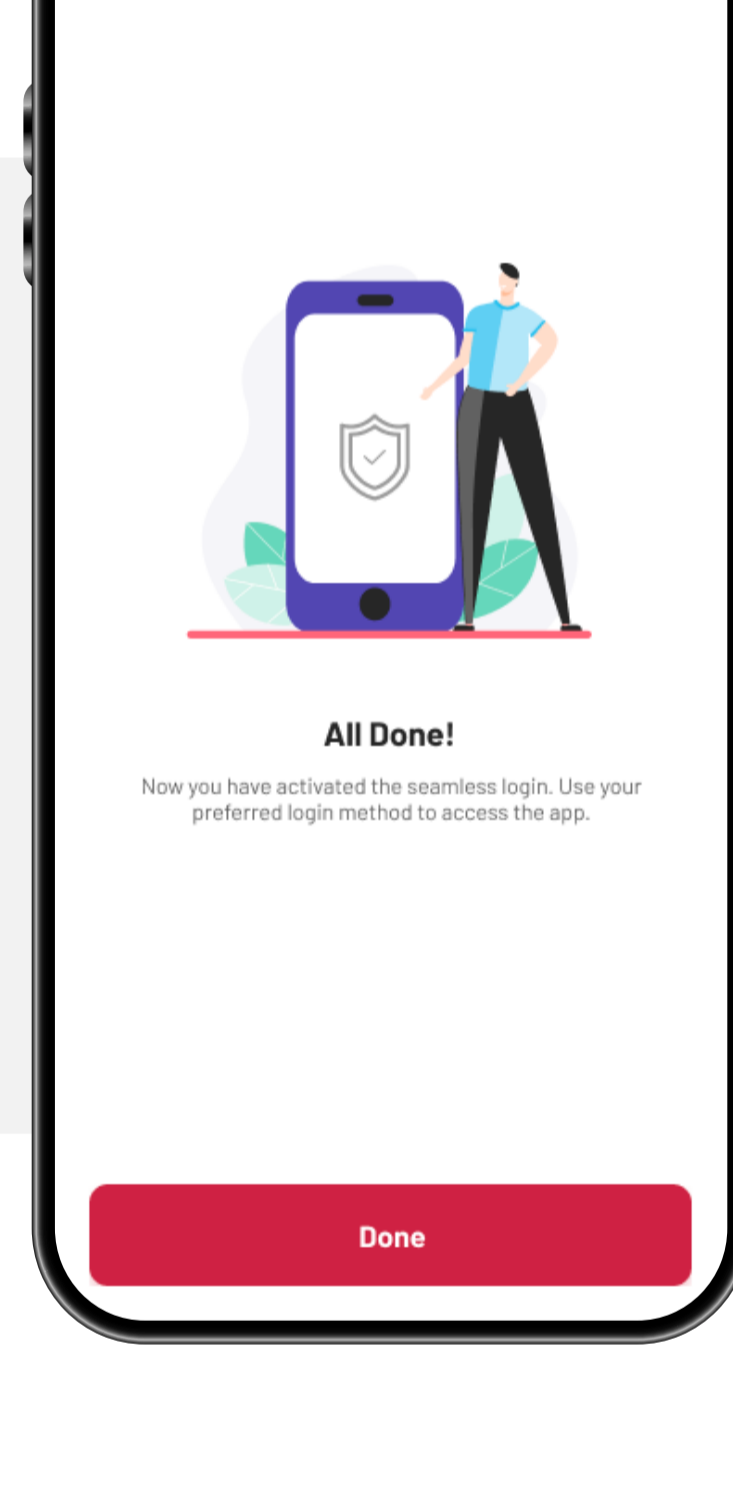

5

- Once you agree on T&C, an OTP  
(One-Time Password) will be sent to  
the user registered mobile number
- Enter the OTP to confirm and  
activate biometric login

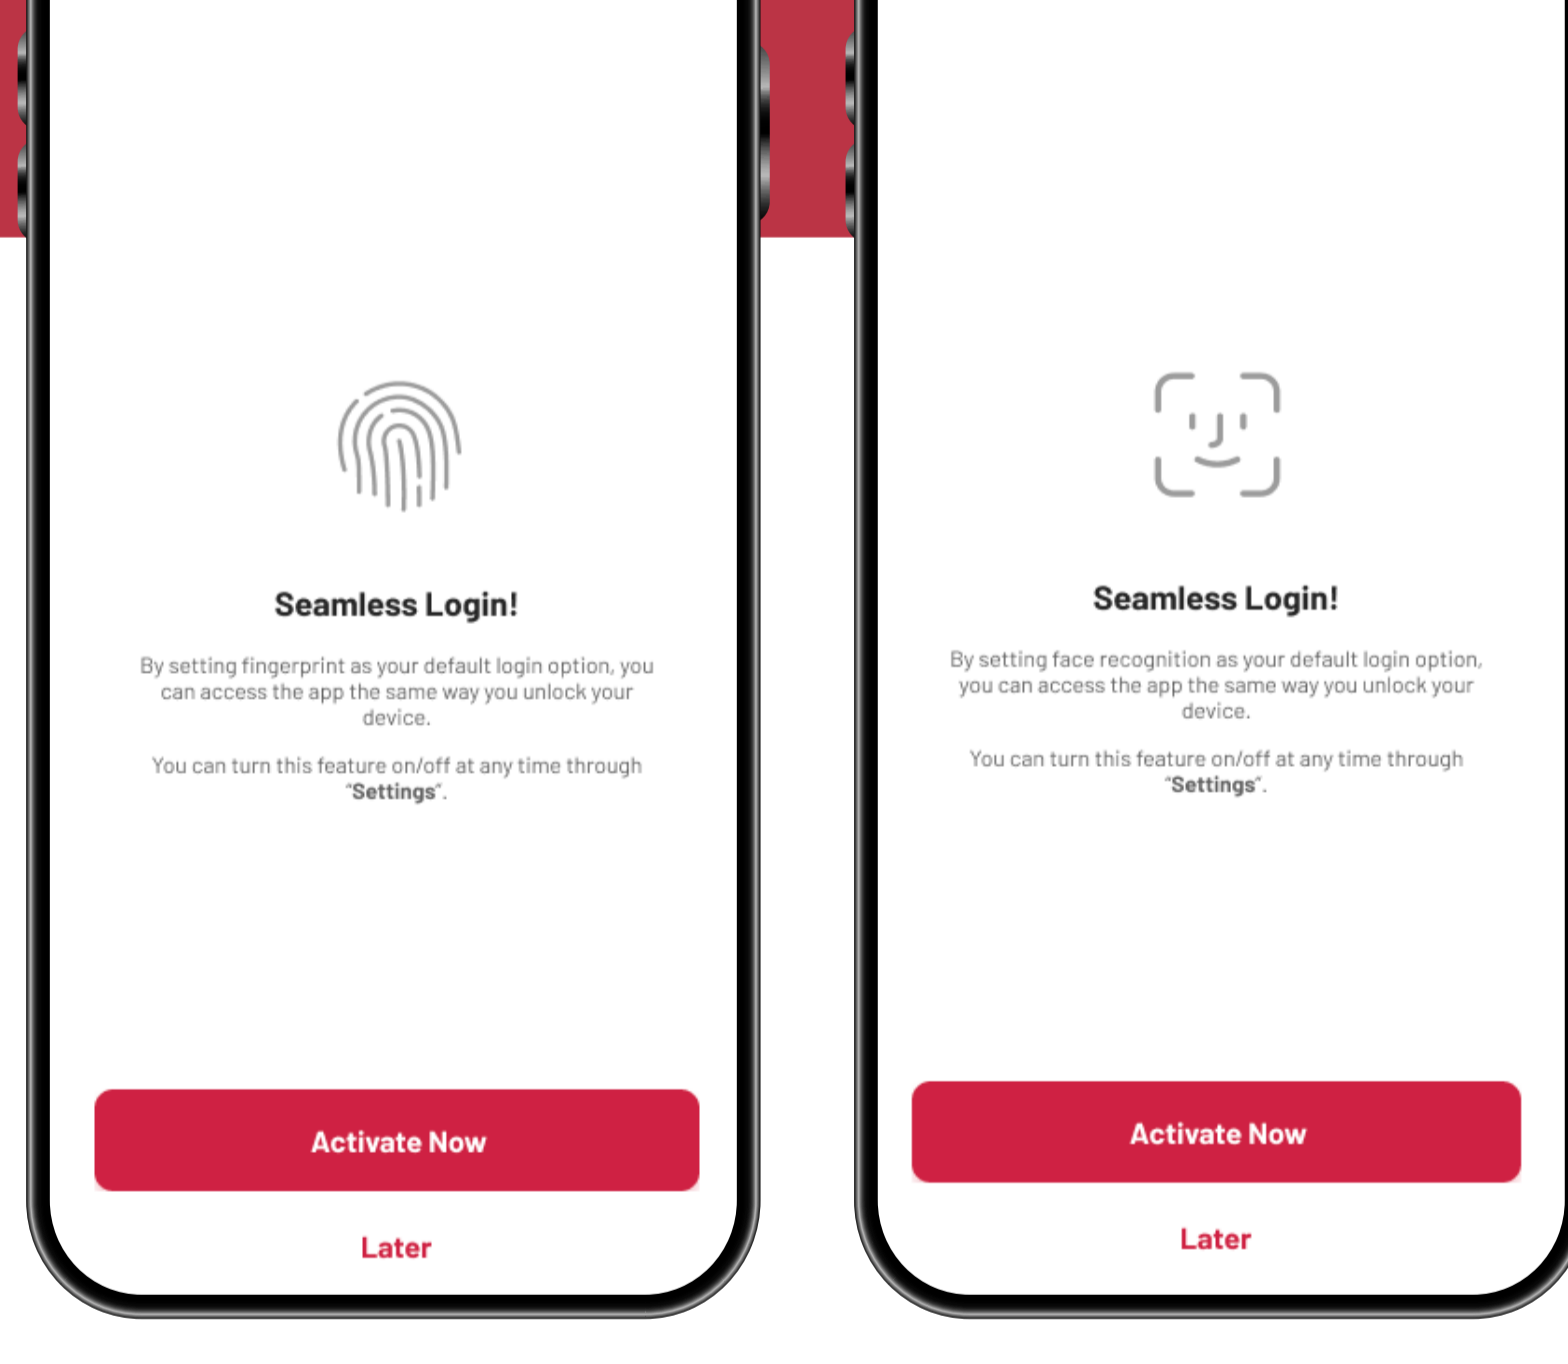

6

A confirmation screen will appear  
once activation is successful.

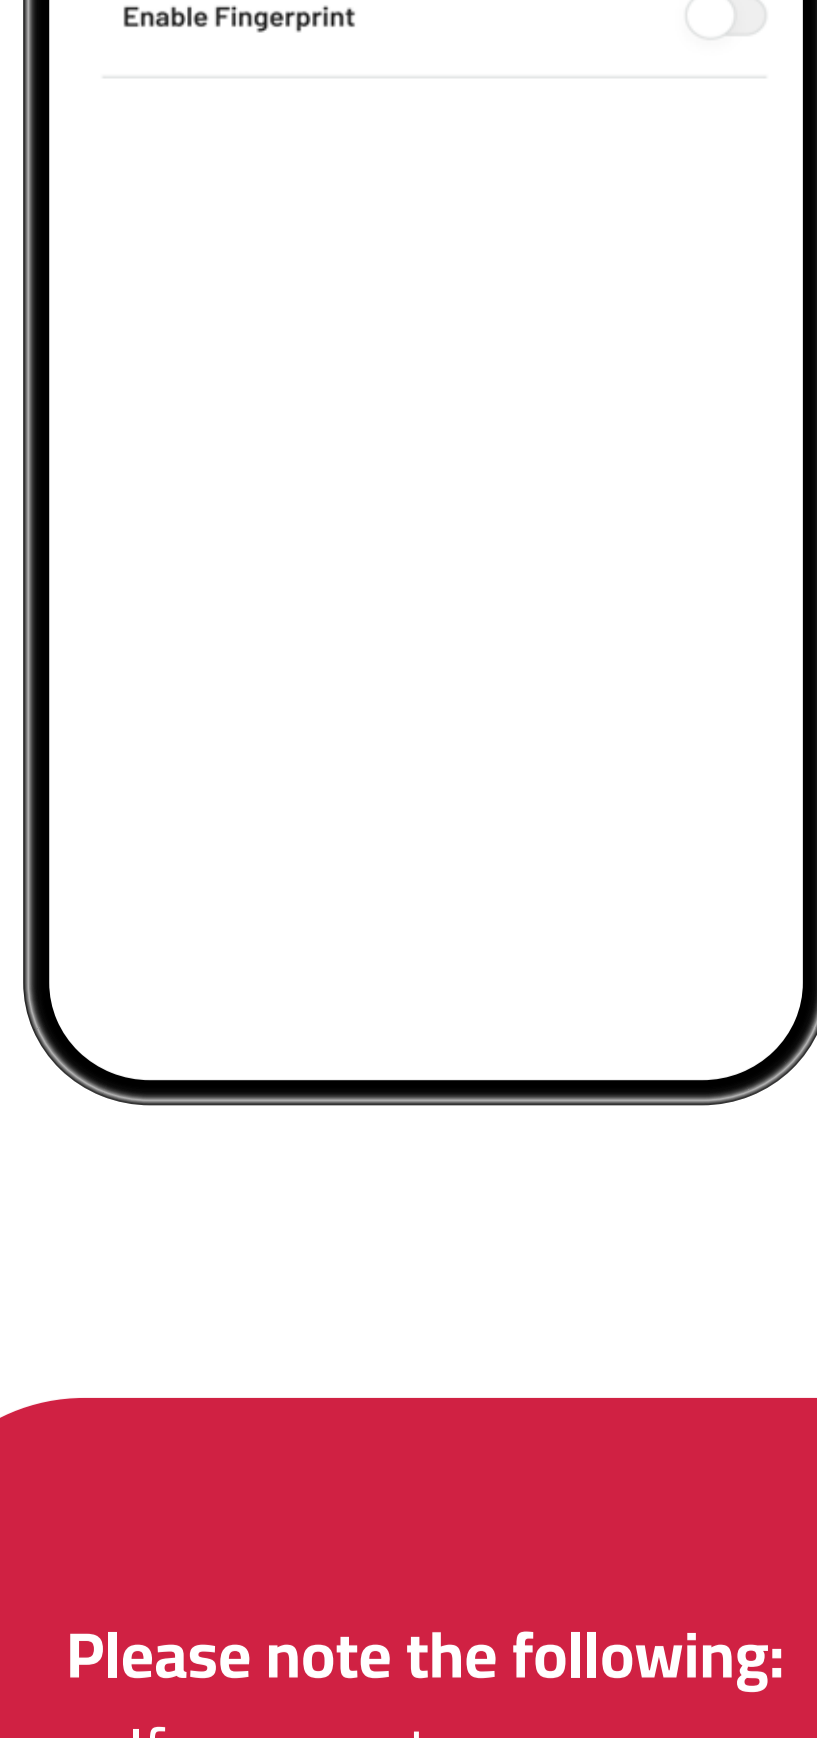

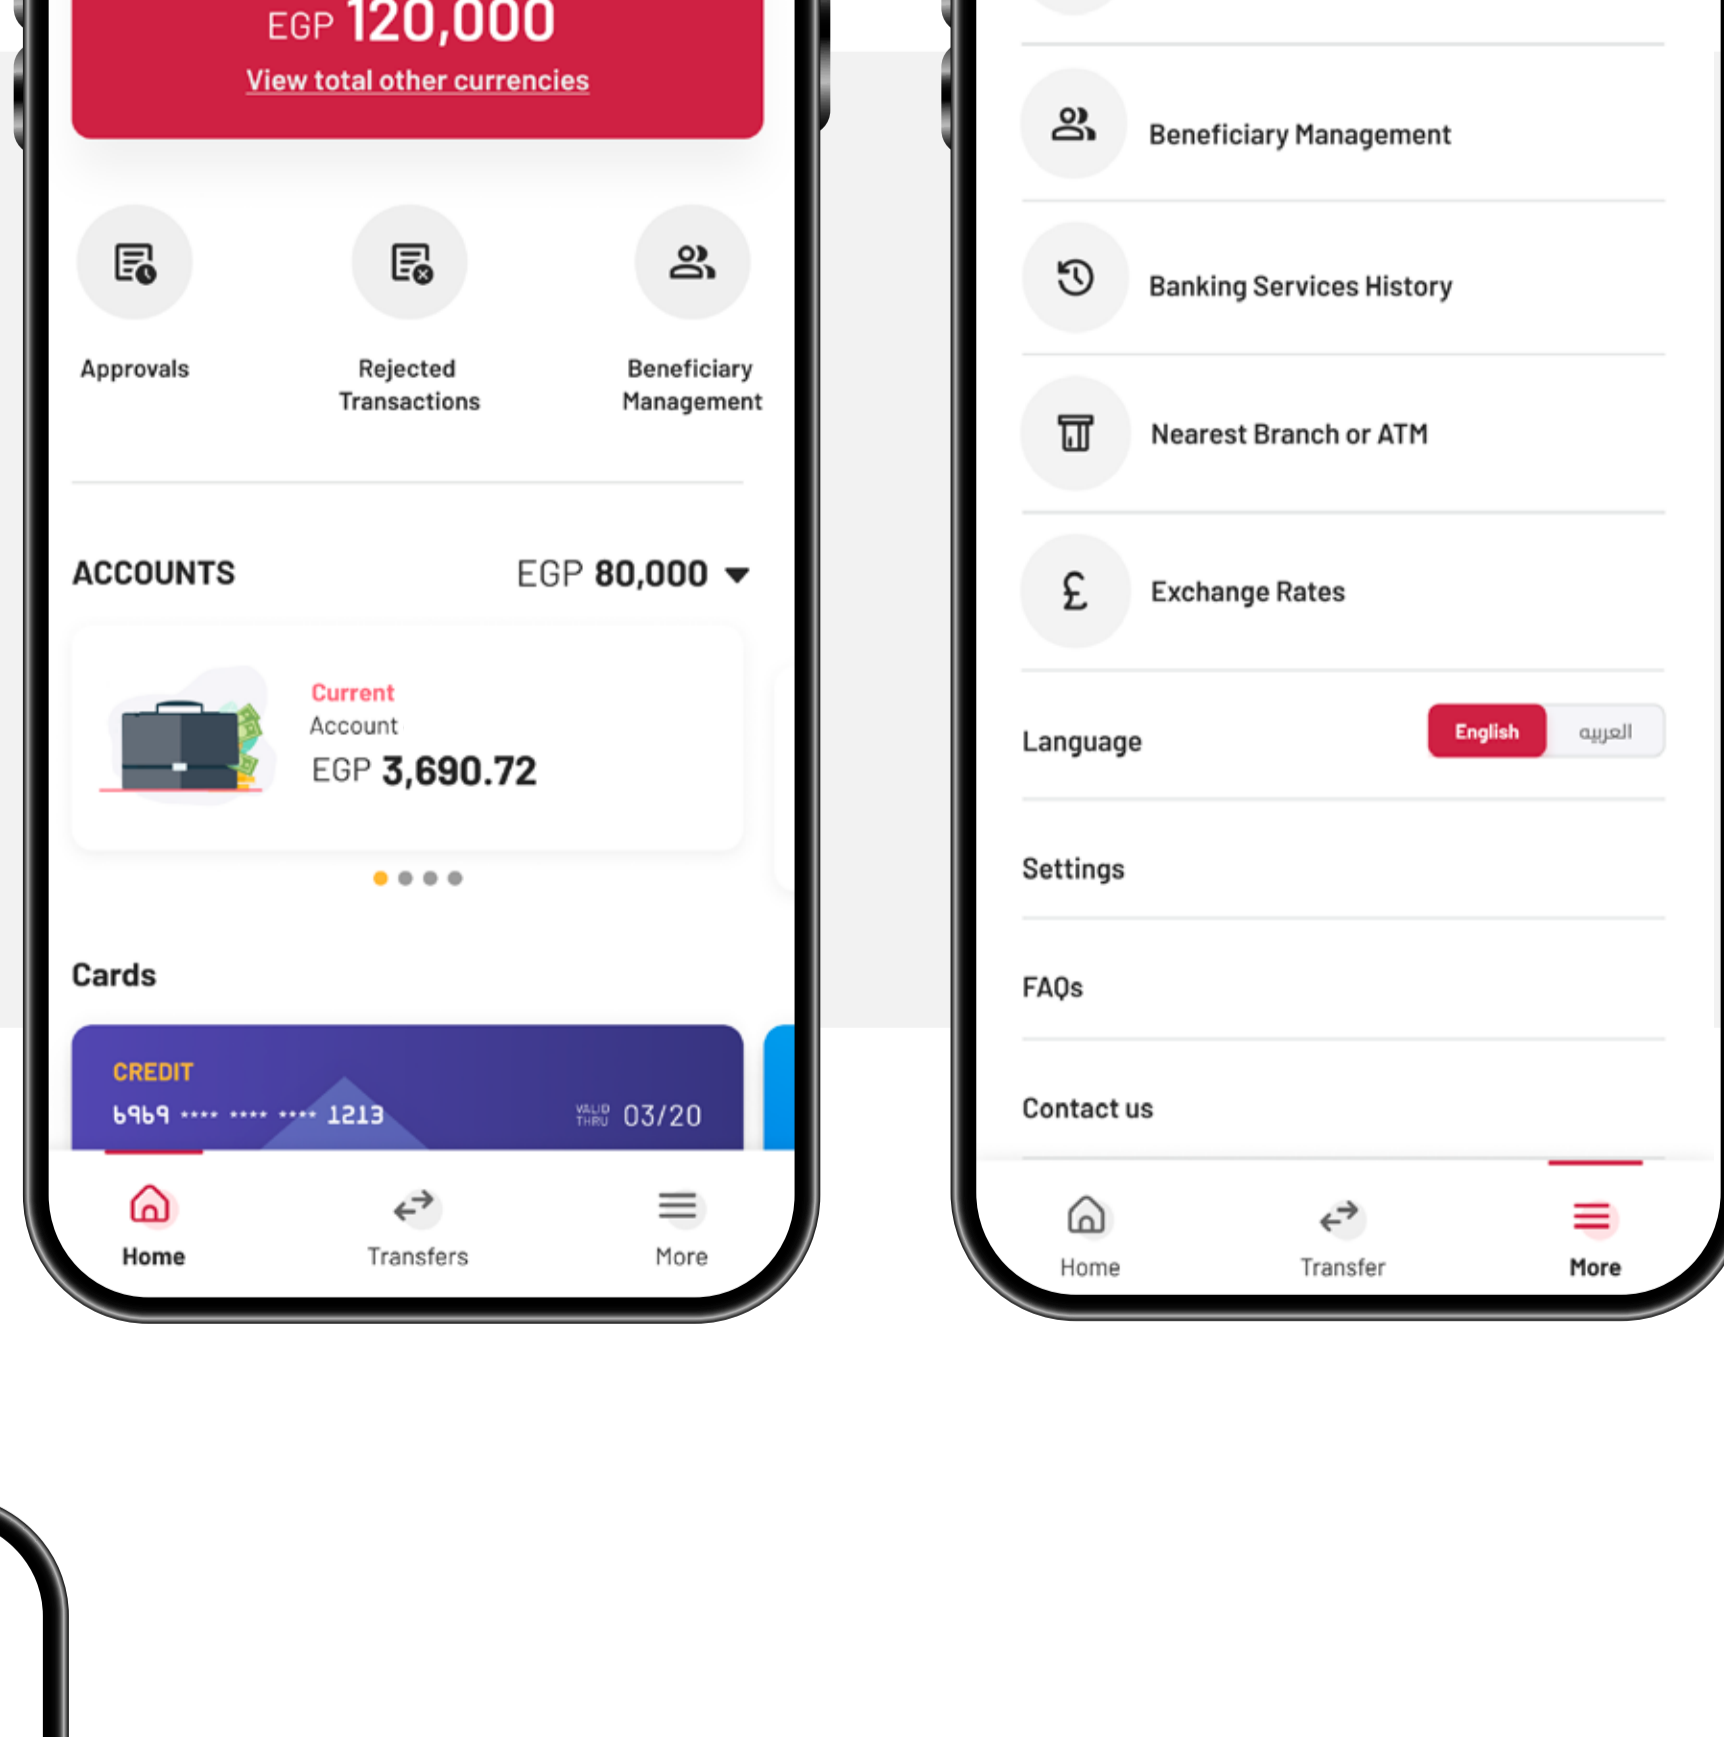

### If You Tap “Later”

- Open the BM Online Business mobile app at any time.
- Login with your username and password.

**From the Home page, tap the  
“More” menu.**

Select “Settings”.

**Activate fingerprint or face recognition,  
then follow the steps starting from step  
3 above**

### Please note the following:

- If you reset your password, you will need to re-enable the fingerprint/face login feature on your mobile device.
- Fingerprint/faceID login feature can only be activated on one mobile device per user.
- If you change your mobile device, you will need to re-enable the feature on the new device.
- Please make sure to regularly update the app to the latest version to ensure the best banking experience.
